MOOD: 🥺 embarrassed

MUSIC: Seether -- "Given"

"But Chaz has a really big [infinitesimal pause] rice cooker."

Later, me: "I don't want to know what that was about, do I?"

Harpy: "Probably not."

This looks like a
good idea.

...

This.

Well, if one of them is me--ohgod, there's nothing I can say that doesn't make it WORSE.

This is me crawling under my desk.

Don't look now, but Wonder Woman noticed you blushing. I think she's emailing the Cowboy to find out what's going on.

Or winter, for that matter.

(Nothing like typing with a sprained wrist.)

Hey! Put that brace back on! Otherwise you compensate wonkily and get repetitive motion injuries in addition, and THEN you'll be sorry, buster.

Oh, and wear your sweater! It's cold out!

And all this after you did such a fine job splinting it.

Hey, come eat. I know you're still at work. Bring salad. The Italian is cooking: I need help.

...can you make the peppermint bark ones again? O.O

[COLLAPSE](#)

Well, because it's you asking. And because it's peppermint season. And a little bit because they're crunchy-good. <3

Crunchy. I was typing with [ace_cub_reportr](#)'s wrist.

Ohgod, that brings us right back to the rice cooker. O.O

.... on my way.

Should I bring the rice cooker?
